

## TITLE

**BIFTEC – EUROPEAN MASTER OF SCIENCE IN FOOD SCIENCE, TECHNOLOGY AND BUSINESS**

## HIGHLIGHTS

BiFTec-programme prepares competent employees for sectors including food production, processing and agribusiness as well as for industry and academia.

## ABSTRACT

The new two-year European Master of Science in Food Science, Technology and Business (BiFTec) is jointly organised by three European partner institutions: KU Leuven, Anhalt University of Applied Sciences (HSA) and Catholic University of Portugal (UCP). It fosters innovation and technology to help you cope with future needs and sustainability.

BiFTec adopts a horizontal, multidisciplinary approach to a broad range of topics related to food production, processing and agribusiness. The programme also offers specialisation with state-of-the-art courses on food processing, development, and business. Upon graduation, you will receive a joint degree from the three consortium partners.

BiFTec attracts students from all over the world, which adds a valuable intercultural element to your experience. In addition to positions offered directly by the consortium partners, you will get the opportunity to conduct your professional competence module and/or your master's thesis research at an associated partner institution or organisation in New Zealand, the USA, Russia, Italy, Poland, or Germany.
